

ARTISTS COLLECTIONS

Wildlife & Animals

Creatures great and small—wild and domesticated—are highlighted in this special advertising section devoted to wildlife and animal artwork. This collecting genre has continued to inspire with artists devoted to capturing the likeness, personalities and habitats of their subject matter. Some even turn to conservation to tell stories of preservation and protection. The artistic styles are as diverse as the animals themselves, allowing you to find work that fits your collection.

Bobbe Jones

Bobbe is deeply passionate about the natural beauty that surrounds her studio in Southwestern Colorado. Magpies are frequent visitors and she felt compelled to capture their stunning bright blue and black plumage and fascinating personality. She used high-quality oil paints to express the vibrancy of the bird and the subtlety of its surroundings.

Karen M. Cade

Karen has been a professional artist for over 35 years having studied under master instructors in college. Karen's love and ability to convey the emotion of her western and wildlife paintings has earned her artistic awards and regional acclaim. She lives in the Black Hills of South Dakota on her cabin property.

Showings: Art House Gallery, Hot Springs, SD; April 18-July, 2025.
The Western & Wildlife Art Show at Fort Robinson, NE; July 2-July 4, 2025.

Doyle Hostetler

Mindset is key for me! Pushing too hard, thinking too much – it doesn't flow. Likewise, comfort kills the creator. There's a quiet, sweet spot with a touch of pain I thrive in. Impulse is paramount. I trust my eyes to connect with imagery. I find energy as new ideas come.

Cindy Sorley-Keichinger

Cindy is married to a grain farmer and has four children and 10 grandchildren who keep her busy. She has been painting for over 30 years and is a member of several guilds; including Artists For Conservation & The Society of Animal Artists. Her preferred subject is wildlife and its environs. She likes to research and make sure her images are true to life so that when a person views them, they learn a little about the creature and its habitat. Her work is found across Canada, the States and overseas.
